

## Covid-19 Risk Assessment Form

The risk assessment process follows the 4-stage cycle of Plan, Do, Act, Review (PDCA):

- Plan Planning the return to work
- Do The physical return to the workplace
- Check Ongoing monitoring of the controls in place and listening to feedback from employees
- Act Implementing any required improvements suggested by employees and adapting control measures in line with Government guidelines

The Check and Act stages will need to reviewed regularly and the lifting of any control measures will need to be appropriate and gradual. Depending on changes to the external environment, it may be necessary to reinstate previous lockdown measures, e.g. if there is a second wave of the Pandemic.

## **Risk Assessment**

| Location  |                     | The Tannery – Yorkshire Office |  |
|---|---------------------|--------------------------------|--|
| Completed by                                      | Name: Andy Taylor   | ATTayle                        |  |
|   |                     | Signature:                     |  |
| Position: Team Leader                             |                     | Date:20-08-2020                |  |
|   |                     |                                |  |
| Approved by                                       | Name: Mica MacInnes | Signature:                     |  |
